To Whom It May Concern

Here is to certify that Mr. Wentao Gu joined our company in November 2020, and he has been working here as a Digital Analysis Engineer (Integrated Monitoring Post) for 1.5 years. His job includes but not limited to the following tasks:

- Participating in data analysis and BI project, and completing data analysis of case report/customer calls/business analysis and fraud detection
- Formulating the standard of data governance
- Investigating business requirements, preparing product requirement documents and communicating with outsourced developers in order to promote the progress of projects
- Getting involved in the study, design and development of risk control platform

Since he joined us in the team, he displays high standard of professionalism, and so his work performances have been well acknowledged and approved by his leader at each level and the colleagues ever worked with him. With a stable improvement in specialized knowledge and skills, he has managed to adjust his work method and attitude in order to promote the effectiveness and efficiency at work, and he has been granted the Pacesetter Awards for two consecutive quarters. Due to his strong abilities in comprehensive use of data, innovation, and communicating and coordinating with peers, he was selected as a member of Innovative Angels Program, leading the research project of “ESG Topic: Insurance’s Product Service and Business Model Innovation in Helping the Dual-Carbon Economy”.

He participates in various activities organized by our company, such as table tennis competition, dancing performance and etc.; and moreover, he is always pleasant and friendly to people around, getting ready to help others whenever necessary.

We believe that Mr. Gu is a highly potential candidate for your distinguished university, and we thus wish him a great success in the future.

Yours Sincerely,

Guyi Jiang
